AN ARMISTICE HAS BEEN COMPLETED

Officers of Japanese and Russian Armies Sign Paper.

MEETING HELD IN OPEN FIELD

Armistice Takes Effect on Septmber 16 Special Naval Envoys to Name Neutral Zone for Navies Will Meet Soon—Other News.

Gunshu Pass, Manchuria, Sept. 14.—Thursday—Owing to the variance between Russian and Japanese time, and also the fact that the exact spot for the meeting of the Russian and Japanese representatives had not been defined, Major General Ovanovsky, representing General Linevitch, was the last to arrive yesterday morning at the place for the armistice conference. General Fukushima, representing Field Marshal Oyama, with Colonel Tanka and Captain Tanaja, two professors of international law, Ariga and Soyi, and a guard of 50 men, had already arrived under a flag of truce.

Ovanovsky and Fukushima dismounted in the plaza near Shahotzu and after an exchange of greetings the two generals at 10 a. m. began the discussion of the conditions o fthe armistice, frequently retiring for the purpose of consultation. All the houses on the spot having been destroyer, the conference was held in the open, the officers sitting on the grass.

After nine consecutive hours' of negotiations, the armistice was signed at 7 p. m., it takes effect Sept. 16, agrees to the abolition of all hostile or inimical acts, establishes a neutral zone of four kilometers wide between the two armies, of which Shahotzu on the railway is the center. Maps showing the zone are to be exchanged. Only civilians will be allowed within the territory and communication between the two armies is to be only by the Shahotzu road. Special naval envoys are to meet near Vladivostok with one ship for each nation to confer and establish an armistice and a neutral zone at sea.

An armistice on the borders of Korea is to be arranged by separate negotiations between the local commanders and on terms similar to those agreed upon in Manchuria.

TO VISIT WILDS OF AFRICA.

Chicago Professor Will Spend Some Time Among Savage Tribes.

Chicago, Sept. 16.—Professor Frederick Starr, of the University of Chicago, anthropolgist, has been granted a leave of absence of more than a year by the officials of the university, which time he will spend among the savage tribes of Central Africa. He will leave Chicago tomorrow and expects to sail from New York next Monday.

He expects to reach Rome, at the mouth of the Congo, about October 19, and will go overland to the jungles of Ndombi, where he will live with the natives for a year. His headquarters will be 1,100 miles from the sea and the only white men who will be with him will be his Mexican photographer, Manuel Gonzales, a boy whom Professor Starr has educated

The principal objects of his visit are to make a thorough study of the inhabitants of the land of the Ndombi.

AMERICANS VISIT EMPRESS.

Miss Alice Roosevelt and Party Presented to China's Ruler.

Peking, Sept. 15.—Noon—Miss Alice Roosevelt, Mrs. Rockhill, wife of the American ministers, Mrs. Newlands wife of United States Senator Newlands, and other ladies of Miss Roosevelt's party, went to the summer palace Wednesday and spent the night.

Yesterday they were received informal audience by the Dowager Empress, Mrs. Rockhill, who was first presented to the empress introduced Miss Roosevelt first and afterward the other ladies of the party. The empress moved among the visitors, chatting informally and presenting them with handsome gifts of bracelets and rings. This was followed by an inspection of the grounds of the summer palace. The whole visit was remarkable on account of the absence of formality. Returning to Pekin in the evening most of the party attended an "At Home" at the German minister's, where General Corbin and wife and Senator Newlands and wife are being entertained. The party spent today seeing the sights of Peking.

Tomorrow all will go to Tien Tsin to attend a reception given by Viceroy Yuan Shai Kai.

WILL DISCUSS TUBERCULOSIS.

Physicians from All Over World to Hold Meeting in Paris.

New York, Sept. 16.—Great preparations are being made, says a Herald dispatch from Paris, for the tuberculosis congress, which will be attended by delegates from all the nations of Europe and America.

The session will be open from Oct. 2 to Oct. 7. A special building has been set apart for their use, with large halls to accommodate the different sections. These are divided into scientific social, historical and industrial.

There will also be an exposition of food products permitted and recommended by physicians in tuberculosis cases. Rooms will be fitted up like those in Sanatoria, of three classes, those destined for rich patients, those for middle classes and those for the poor. Special exhibits will be made of pharmacy for tuberculosis and of house furnishings, such as armchairs and baths, for patients. Cleansing and disinfecting apparatus also will be displayed.

Workmen Make Demonstration.

Budapest, Hungary, Sept. 16.—Since early this morning dense masses of workingmen have been marching to the lower house of th ediet for the purpose of making a demonstration in favor of universal suffrage. Crowds composed of other classes also gathered and strong cordons of police were posted near the building. Herr Julius Justh, president of the house, received the deputations who presented petitions setting forth the demands of the people. In reply Herr Justh said the position of the house prevented him from expressing an opinion but he begge dthe people to await quietly the decision of the parliament. Work is at a standstill in all the factories and the workers are taking part in the demonstration. No disturbances have been up to the time of this dispatch was filed.

Lord Robert's Visit Postponed.

London, Sept. 16.—Field Marshal Lord Roberts' visit to America has been postponed and will not be made this year. He received an invitation to address the annual meeting of the board of trade while in New York, to which he replied regretting that he is compelled to postpone his visit on account of official and other engagements not permitting him to leave England at the time he expected to cross the Atlantic.

UNREPORTED CASES WORRY AUTHORITIES

Persons Who Take Fever Will Not Make Fact Known.

9 NEW CASES AND 3 DEATHS

Federal Authorities Will Use Very Stringent Methods With Those Who Refuse to Report Cases of Yellow Jack at Earliest Possible Moment.

New Orleans, Sept. 16.—Up to noon today there were 9 nine cases of yellow fever and two deaths.

New Orleans, Sept. 16.—Inspectors and doctors were so active yesterday in turning up new cases of yellow fever that apparently there were not a great many left today, the early report showing smaller figures for both cases and deaths. The weather is again clear and warm. Under the inspiration of Dr. White's appeal, the forces of the Federal government are putting increased zeal into their sanitary campaign.

Annoyed by Unreported Cases.

Annoyed by the constant digging up of hidden cases of yellow fever, which has added to the difficulty of stamping out the disease here, Dr. White is serving notice on the public that he and his staff hereafter will relentlessly prosecute those who may be guilty of suppressing cases. The attitude of the federal authorities heretofore has been one of benevolent toleration of shortcomings of certain elements of the community, but since their appeals continue to go unregarded, resulting in a menace to the whole community, sterner measures have been decided upon.

The service is now investigating several reports of cases where fever is being concealed, and no physicians called and as in the Caseuax cases, it will send the cases to the Emergency hospital and to pail those who are responsible of the failure to report. The increase in new cases has caused no alarm because the physicians are treating cases so skillfully that few deaths result, their efforts being forwarded by the mildness of the type of fever has now assumed, but the fact that new foci are constantly appearing is discouraging because it means a prolongation of the scientific siege to overcome the disease.

Advices from Tallulah and Lake Providence are again more cheerful. Dr. Chassaignac will make a hurried visit to the city of New Orleans to transact some pressing personal business, and will then return to Tallulah and remain in charge until the disease has been eradicated.

The situation there and at Lake Providence is being steadily helped by the exodus of those who can get away—a movement which the doctors are encouraging. The citizens have raised a considerable fund and this will be supplemented by a further contribution by the state. Elsewhere in Louisiana, there is improvement in the situation, with very slight spread of the infection to ne wpoints.

Suspects Stopped in Cincinnati.

Cincinnati, Sept. 16.—At least five persons suspected of having yellow fever arrived here over the Queen and Crescent line at 2:45 a. m. today.

Those held are Mrs. T. J. Roan, of Tallulah, La.; Miss Anna Stone, of Tallulah, La.; Mrs. Jones, of Tallulah, La.; Willie Walters Smith, of Lake Providence, La.; and Miss Stockner, of Lake Providence, La.

The train consisted of two hundred refugees from Lake Providence, La. and Tallulah, La., who were fleeing from the yellow fever.

Dr. Clark W. Davis, health officer of this city, being notified by General Passenger Agent Rinearson, that he was bringing about 200 people from the south up in a special, sent Dr. R. F. Lyle, and an assistant, to board the train at Lexington, examine the people aboard and wire him.

Ambulances were at the train to re[illegible] to response to a [illegible] train reached Lexington several persons were sick, attempted to escape, but were caught by the police and forced back into the train. They were taken to the branch hospital on their arrival here.

All the other passengers of the train were allowed to go to their destinations. Reports say a large number of these were also sick and were investigated by physicians during the day.

Fifty of the party of 200 came to the city absolutely penniless though each carried a lot of handbaggage. These fifty gathered together in a group at the Grand Central station. Congressman R. E. Ransdale, of Lake Providence, La., was on the train, and he and his family rendered every assistance to the stranded group of fifty.

Three New Cases at Nachez.

Natchez, Miss., Sept. 16.—The yellow fever situation took a bad turn this morning when three new cases were reported, all the patients being negroes.

One is a new foci.

Johnson, the white groceryman, was discharged this morning.

ARRESTED ON HONEYMOON.

Georgia Man Accused of Obtaining Money Fraudulently.

Lexington, Ky., Sept. 16.—Mrs. W. H. Moody, of Atlanta, Ga., mother of Dr. Louis H. Moody, arrived here to be present at the trial of her son, who is charged with forgery and obtaining money under false pretenses.

Moody established a branch office here of the Southern Chemical company, of New York, and a few days later cashed two drafts on the alleged concern for several hundred dollars, but the drafts were returned and the concern pronounced a fake.

Before the alleged fraud was discovered a courtship of one week, Miss Hattie Bright, a daughter of Alderman J. I. Bright, and he was arrested in Nashville while on his honeymoon. He has been in jail several months, and it is said he is an escaped lunatic from an asylum in Georgia, and a plea of insanity will be made when the case comes up Saturday morning in circuit court.

Moody is a nephew of Judge Hamilton, of Macon, Ga., who will be here to assist in the defence.

Charged with Killing Sire.

Warrenton, Ga., Sept. 16.—Morgan Rivers was brought back here from Rivers was sent up from this county for burglary, and after serving a short time, escaped from the Clarke county camps. Rivers was convicted for burglarizing A. J. Locke's store. The night following his escape from camp, the Lockett store was again burglarinzed and Rivers, on being rearrested, confessed to having burglarized the store the second time. Rivers was tried once for killing his father, but was acquitted. He now confesses his guilt of the crime. The governor offered a reward of $100 a few weeks ago for Rivers' arrest, and the South Carolina authorities have claimed the reward.

Killed While Cleaning Gloves.

Birmingham, Ala., Sept. 16.—Mrs. Hattie Bird Stapleton, died Wednesday afternoon from burns sustained while cleaning a pair of kid gloves with gasoline. The gasoline was accidently ignited and the upper portion of the woman's body was frightfully burned. Mrs. Stapleton was director of the Simpson Methodist church choir and was a well known musician of the city.

AMERICANS TO HAVE AN IMPARTIAL TRIAL

Nicaraguan Government Must Give Prisoners Justice.

TO MAKE NO DEMONSTRATION

President Roosevelt Has Decided that It Is Unnecessary to Send Warship to Central American Government at This Tmie.

Oyster Bay, Sept. 16.—A misapprehension has arisen to the action of the case of William Albers and his brother who are confined in prison at Ocatel, Nicaragua.

It is said here by authority of President Roosevelt that no demonstration against Nicaragua is to be made at this time. It appears from official correspondence that Albers is under arrest at Ocatel for an alleged violation of the law of Nicaragua and for contempt of court. Their trial will take place shortly. The various phases of the case have been presented to this government, the Albers brothers being American citizens, and the president directed that the usual steps be taken to insure the prisoners absolute fair and impartial treatment at their trial.

United States Consul Lee at Panama will be, if already he has not been directed by the state department, to go to Ocatel to be present at the trial. His instructions are to follow the proceedings of the case with a view to insuring the Albers a fair trial.

It is assumed by the government that the men will get impartial treatment, but if they do not, any action of this government toward Nicaragua will be determined upon when any unfairness shall have been disclosed.

United States Minister Merry, accredited to Nicaragua and Costa Rica, will not go to Ocatel. He is in Costa Rica at present and probably will remain there for a time. Consul Lee will go from Panama to Corinto on the gunboat Princetown as the easiest and quickest way of making the trip. It can be said that no reason existed for cloaking the action of this government in secrecy as the proceedings directed by the president simply were taken to insure ordinary protection and fair treatment to American citizens.

Failed to Prosecute Murderer.

Portland, Ore., Sept. 16.—A dispatch to the Oregonian from Olympia, Wash., says that a man convicted of murder in the first degree and sentenced to be hanged has been allowed to live in jail at Walla-Walla undisturbed for nearly three years. Oscar Bradshaw was convicted in Franklin county in December, 1902, and was sentenced to be hanged. He gave notice of appeal and was remanded to the Walla Walla county jail. Bradshaw never prosecuted his appeal and has been allowed to remain in jail undisturbed ever since. The prosecuting attorney for Franklin county now asks what he can do about it ,and the attorney general advises him to file the record in the supreme court and move a dismissal of the appeal for want of prosecution.

Farm Laborers Are Scarce

Macon, Ga., Sept. 16.—The [illegible] reports about the scarcity of labor coming in, and it is said that a great many fields around Macon are white with cotton, while no hands are available for picking them. Indiana Official Removed

Indianapolis, Sept. 16.—Daniel Sherry, auditor of state, was removed from office by an executive order issued by Governor Henley yesterday. The order charges that the official is guilty of a plain and inexcusable violation of the law, and a gross betrayal of his public trust in the investment of trust funds belonging to the state in

ILLICIT DISTILLERY IN HANDS OF LAW

Officers Made Successful Raid Near Mikesville, Columbia County.

THE DISTILLER AN OLD HAND

It Is Alleged That He Has Been Making and Selling Liquor for Many Years, and That Still Was Reported Because It Became a Nuisance.

Revenue Officer Wright of the United States Government, Deputy United States Marshal Bureex of Jacksonville, and Deputy Sheriff James R. Granger of this city, Wednesday night succeeded in raiding an illicit still alleged to belong to Abraham Shephard, a colored man, near Mikesville, Columbia county.

It is said that this still has been in operation for several years and that Shephard, the proprietor, has made himself financially almost independent from the sale of its productions. He worked the scheme in a clever way, and as far as being convicted of the sale of whiskey, it is said, there was no possibility. It was the old unwritten understanding that a fellow was to leave his jug and money in a certain place and when he returned an hour later he would find his money gone but his purpose accomplished, for the jug would be filled with that invigorating beverage known as corn liquor, "direct from manufacturer to consumer." It is said that the distillery got to become a nuisance in that section and was finally reported with the result mentioned.

Shephard was brought to this city and placed in prison and will be taken to Jacksonville this morning, where he will be arraigned before the United States Commissioner.

CONTAGIOUS
BLOOD POISON

Contagious Blood Poison more thoroughly poisons the blood than any other disease. Every part of the body is affected when the virus becomes intrenched in the circulation; red eruptions break out on the skin, the mouth and throat ulcerate, glands in the neck and groins swell, the hair falls out, copper-colored splotches appear on the body, etc.

I was afflicted with blood poison, and the best doctors did me no good, though I took their treatment faithfully. In fact I seemed to get worse all the while. I took almost every so-called blood remedy, but they did not seem to reach the disease, and had no effect whatever. I was disheartened, for it seemed that I would never be cured. At the advice of a friend I then took S. S. S. and began to improve. I continued the medicine, and it cured me completely.
Hamlet, N. C. W. R. NEWMAN.

So highly contagious is this disease that many a life has been ruined by a friendly hand shake or from using the toilet articles of one affected with the poison. To cure this hideous and hateful disease a constitutional remedy is required. S. S. S. goes down to the very root of the trouble and forces out every particle of the virus from the blood and cures the disease permanently. S. S. S. is purely vegetable and drives out the trouble, root and branch, and no signs of it are ever seen again. Those who have been cured by S. S. S. can feel assured that none of the poison is left in the blood to transmit to innocent offspring. The entire body is built up and the blood made pure, rich and healthy by this great remedy. Book with instructions for home treatment and any medical advice desired will be given free of charge.

On Thursday, Aug. 24, 1905, Glayds Morine, the 11-months-old baby of Mr. and Mrs. Jno. D. Crosby of LaCrosse, closed its eyes to earthly things, and went back to its Maker. Glayds was a beautiful child, of a sweet, gentle disposition, and the loving father and mother had surrounded it with all the love and attention possible, but the Master's call was answered promptly, and another angel was added to the happy throng above.

The skill of the physician, the prayers of an anxious mother, and the kind deeds of friends and relatives could not stay the hand that wrenched their jewel from them.

The little corpse was laid to rest at Antioch Cemetery, but its spirit is safe in the arms of Jesus, where it awaits the happy reunion with loved one left behind.

Our dainty little rosebud
Was getting ready to unfold
Its richly-tinted petals,
Shaded with purest gold,
But in this poluted world
God chose not for it to bloom,
Where sinful vices might corrupt
And fix for it an awful doom;
So in his garden fair
He has placed our little flower,
Where it will disclose its fragrance
As it opens in Eden's holy bower.
Sigh not, loved ones, that it is gone;
It did not fade, droop and die—
Only an angel gathered it
For a boquet beyond the sky.

WEATHER CONDITIONS BAD

Experienced Cotton Buyer Who Has Examined the Field Declares a Loss of One-Third, Owing to Rain, Rust and Caterpillars.

Among the visitors to Gainesville Thursday was E. B Godwin of High Springs.

Mr. Godwin was formerly engaged in the mercantile business in High Springs, being a member of the firm of Easterlin & Co. For some time this firm conducted a most successful mercantile store, but was eventually burned out, when Mr. Godwin assumed the position of an exclusive cotton buyer.

During his career as a cotton buyer and handler of the staple Mr. Godwin has made quite a success. He keeps well posted on the markets, which is necessary for his success, and has recently made a tour of Alachua, Columbia and Hamilton counties—at least those portions which produce Sea Island cotton.

In speaking of the condition of the crop from his observation and experience, Mr. Godwin states that the damage from rain and other adverse conditions will be about 33 per cent. "There has been lots of cotton ginned this season," he remarked, "but it is to be borne in mind that the crop this year was early, opened fast, and a great deal has been gathered. That is no indication, however, that we are to have a prosperous season.

"I have been told that Rives & Son, who operate a ginnery at Alachua, turned out about forty bales by September 1, but since that time they have been comparatively idle. There are several reasons why this should be the case. In the first place, the crop is early; in the second place, the rust and caterpillars have played havoc; and in the third place, it is difficult to secure pickers for the crop that is in the field."

Fancy cotton, Mr. Godwin says, is difficult to market; the Savannah brokers and buyers will not pay over 19 cents, and it is hard to sell at all. The quotations have been steady since December of last year and there seems to be few takers of fancy cotton. The extra choice, which is a second grade, is being sold readily at 17½c in Savannah which means about 15½ net here.

The planters can do much better from a financial standpoint by selling their cotton to local buyers, who are paying for extra choice the same price as Savannah parties and the freight is saved.

Mr Godwin believes that the season will be very short this year as the crop was planted early and will be harvested proportionately early. Every condition has been against the crop, which will naturally make the yield short.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostrate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Ross Fort, Mo., writes: "I suffered with enlarged prostrate gland and kidney trouble for years, and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." J. W. McCollum & Co.

North Gainesville Affair.

The young people of North Gainesville always full of energy and gaity, gave an entertainment at the North Gainesville Hall Wednesday evening, the nature of which was literary.

The young folks presented several dialogues, recitations, etc., which were very much enjoyed by the large audience present, which afterwards voted them thanks for the evening's pleasure.

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

"My hair was coming out terribly. I was almost afraid to comb it. But Ayer's Hair Vigor promptly stopped the falling, and also restored the natural color."

GOT A GOOD MAN.

Expert From Biltmore Estate Has Accepted Position at Spring Park.

The Spring Park Stock Farm Company, of which N. A. Callison is manager, has determined to give the farm the attention it deserves, and has secured the services of F. H. Waterworth, for the past six years connected with the Biltmore Farms, Biltmore, N. C., as a specialist, and who is regarded as one of the finest in the United States on live stock.

Mr. Waterworth is a native of England, but has been in this country for many years. He has devoted his life to the care and study of cattle and is "in love with his profession," which means that he is thoroughly competent. While at Biltmore a few weeks ago Manager Callison was impressed with his attention to the stock, and subsequently made arrangements for him to come to Spring Park Farm when his yearly contract with Biltmore expired.

THREE JURORS CURED

Of Cholera Morbus With One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Clebourne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." For sale by all druggists.

A Novel Affair.

The local camp, Woodmen of the World, gave a pillau last night which was well attended by members of the order, and it is needless to add was greatly enjoyed. The pillau was prepared in a most appetizing manner and those who had the good fortune to "sample" it declare that nothing better of the kind "ever happened."

The Woodmen are a jolly set, and their entertainments, while not so frequent as others, are always appreciated and enjoyed.

Dr. Finn's Testimony Interesting.

Dr. Thomas Finn of Boonsboro, Mo., who has practiced medicine for 32 years, says he has used every prescription known to the profession for treatment of kidney and bladder diseases, and says he has never found anything so effective in both chronic and acute kidney and bladder trouble as Foley's Kidney Cure. It stops irregularities and builds up the whole system. J. W. McCollum & Co.

TIMELY SUGGESTIONS.

By Alachua County Fair Association. Exhibits for State Fair.

The Alachua County Fair Association has issued a circular relative to providing an exhibit at the Florida State Fair, which will be read with interest by the people of the county who intend sending exhibits, and who want to see Alachua county's products shown up well at Tampa.

Persons are not asked to give their exhibits to the Fair Association. They are only asked to loan them for exhibition at the Tampa State Fair. If the articles are properly tagged they will go safely and be returned to the owner. Tags can be had from the commissioner of your election precinct free of cost. Fill out your address, express and postoffice in a plain hand-writing. Boxes containing exhibits should have the lids fastened with screws to prevent breakage in opening and facilitate repacking.

Abscess.

Abscesses, with few exceptions, are indicative of constipation or debility. W. H. Harrison, Cleveland, Miss., writes, Aug. 15, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment; I got a 50c size, and it cured my leg. It is the best liniment in the world." Sold by W. M. Johnson.

JUSTICE COLMAN'S COURT.

Man Arraigned for Larceny of a Hog Was Acquitted by Jury.

Justice Colman's court was the scene of an interesting case Thursday afternoon, when Benjamin Wilson, colored, was arraigned upon the charge of the larceny of a hog from Wade Thomas, a farmer of Monteocha.

The case was as amusing as it was serious, and several times during the hearing the court was provoked to laughter. It was a jury case, and the verdict was in favor of the defendant. L. B. Bailey was foreman of the jury.

Attorney J. M. Rivers appeared for the prosecution, while Attorney C. C. Thomas represented the defense.

A Clear Complexion and Bright Eyes.

In most cases a sallow, blotched complexion and dull heavy eyes are due to poor digestion and an inactive liver. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels and makes the complexion smooth and clear. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. J. W. McCollum & Co.

Steam Roller at Work.

Pending the arrival of the flint rock material from the Rocky Point quarries, the steam roller recently received by the city has been at work on various small jobs, and Friday was employed packing and rolling a quantity of Alachua soft rock which had been placed on East Liberty street, between University and Factory.

A large force is engaged in mining rock at Rocky Point, and the first consignment is expected on every train. Immediately upon its receipt the crusher will be set to work, and the building of West Liberty street west from the Gainesville & Gulf tracks will begin.

Devoured by Worms.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from inanition; their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. Sold by W. M. Johnson.

LIBRARY CONTEST IS WAXING WARMER

Between Kirby Smith Chapter and Odd Fellows' Home.

A BIG RECORD FOR THIS WEEK

Kirby Smith Polls 16,323 and Odd Fellows' Home Has 14,572—Earnest Workers and Union Academy Make Small Gains—Elks Get Eight.

This week the Library Contest has been centered on the two leaders, and although there has been one prominent voting place omitted for two weeks, Kirby Smith Chapter rolled up 16,323 and the Odd Fellows got 14,572, while the others made small gains. The Earnest Workers have not had the vote at the Dorsey grocery, owing to the absence from the city of the man with the key to the ballot box.

There are only four weeks left of the voting, and the winner will probably have 800,000 votes. Following is the total vote to date:

Kirby Smith Chapter	157,552
Odd Fellows' Home	105,896
Earnest Workers	41,890
Union Academy	7,543

WORKING ON CENSUS.

Enumerator McRae is Making Good Headway—Will Finish in October.

Census Enumerator T. J. McRae of Hawthorn was among the visitors to this city Saturday.

Mr. McRae has been engaged taking the census of Alachua county, as provided by act of the Legislature, for the past two months. He has quite a force in the field and hopes to conclude his work by the middle of the coming month.

"This business of taking the census is a mighty slow and tedious job," he said, "but I have a good force and am confident that the work is being done thorough."

Mr. McRae states that he expects to reach the Gainesville section some time during the coming week.

NEW SCHOOL BUILDING.

The Progressive People of Newberry District Will Build at Once.

The people of Newberry special subschool district have determined to have a new and more modern school building, and on Friday last Thomas Kincaid and John G. White, trustees of the district, came to town to make arrangements with the school board for the erection of same. It was agreed upon and the contract will be let in a short time, with the provisions that work upon the structure must begin at once and be pushed as rapidly as possibly to completion.

It will be a modern and conveniently arranged affair, designed with a view to meet all purposes for which it is intended for several years.

New Insurance Organization.

The National Union Fraternal Life Association is the name of a new fraternal insurance company, a lodge of which has been organized in this city by Robt. H. Jones, general superintendent, of Atlanta, Ga.

As the name indicates, this association is a purely fraternal order with insurance features, and is being organized upon the division plan, a certain number of counties comprising a division. Mr. Jones has succeeded in interesting some of the most prominent citizens and business and professional men in the city, and the following officers have been chosen for this branch, or lodge, as it is termed:

W. R. Thomas, mayor, president; Dr. D. P. Richards, cashier banking house of H. F. Dutton & Co., secretary-treasurer; Col. H. F. Dutton, banker; Dr. J. L. Kelley, superintendent schools; L. J. Burkim, merchant; Dr. T. F. Thomas, merchant and George W. Hyde, merchant, directors.

W. G. Richardson has been appointed general agent and division manager for the counties of Alachua, Bradford, Levy, LaFayette, Marion and Putnam. Mr. Richardson is an ambitious worker and a hustler, and will no doubt make a big success of the venture.

Important Supreme Court Decision.

Knoxville, Tenn., Sept. 16.—A special to the Sentinel from Bristol, Tenn., says the Virginia supreme court sitting at Staunton, has reversed a decision of a lower court in the case of the commonwealth in Virginia, the Virginia and Southwestern railroad et al, versus South and Western railroad. It was held by the lower court that the South and West did not exist as a corporation in Virginia, and could not make valid claim to about 35 miles of most coveted right of way for its proposed line in the heart of the Guest river valley coal field. The South and Western, it is said, will at once begin to build on this route, from Clinchport to Toms creek, Va. When completed, the road will, with its allies, extend from Ironton, O., to the Carolina Atlantic coast.

HEALTH IN FLORIDA.

There is much fear expressed by Northern people who spend the winter in Florida and go home early in the spring, lest they remain here so late that they contract malaria or are afflicted with typhoid fever. The facts are that such ideas originate in the minds of people who never set foot on Florida soil, who imagine it a morass, with an occasional spot large enough for an alligator to get out and sun himself, and where snakes and other creeping things do dwell.

The truth in regard to the health of Florida, and nothing but the truth, will show that the malaria is not hereabouts, as is suspicioned by these nervous people. In every country on this earth the system needs a cleansing in the spring, and in Florida it needs no more than in other sections.

The past summer, it is claimed by old settlers, has been the warmest for many years, and in nearly every locality there has been a cry that the rainfall has surpassed any summer for the past twenty years, yet the doctors complain that it has been distressingly healthy. The undertakers have been idle nearly all summer, and there has not been enough business in this line alone to keep one man from the poorhouse.

Many men have worked hard all summer, in heat and rain, never having a trouble from the effects of malaria, and although it was stated in the early spring that we were liable to have considerable fever here this summer, it has not put in an appearance and perhaps will not do so at the late season.

The people who come to Florida and spend the summer find the conditions so different from what they had supposed that after one or two years they have no hesitancy in pronouncing it as healthy as any that can be found, and instead of ducking into the shade when the hot rays of the sun come down, go about their work as though they had an awning to cover them. The sun is hot, to be sure, but it has killed mighty few, if any, people in the South, while in the North it has caused many hundred deaths the past summer.

Don't be afraid to spend the summer in Florida, and when a person talks of malaria, just compare figures with them. Florida is a healthy winter and summer resort.

THOS. J. L. BROWN.

In connection with the Florida State Mid-Winter Fair at Tampa, the name of Thos. J. L. Brown is very closely associated, for it was through the indefatigable efforts of Mr. Brown that the fair at Tampa gained the name of "State Fair," as he was instrumental in getting the measure through the Legislature giving the Tampa fair an appropriation of $30,000 for the coming two years.

Mr. Brown, who was made president, has labored faithfully to make the exhibition a success, and without one cent of remuneration for his time, and to say that he is deserving of the fairest treatment at the hands of the city of Tampa and her people, is asking but little reward for his labors.

As manager of the Tampa Bay Hotel he met with greater success than any man has for years, taking charge of that magnificent hostelry when it had been undecided for a long time whether it could be made to pay and it had gone begging for some one to undertake the venture. And now that he has done so much for the Fair, put the hotel on a paying basis, and brought the city of Tampa before the people as a business center and possessed of the finest and best conducted tourist hotel in Florida, there are some who manifest a desire to deprive him of the hotel and put it in other hands, which, besides being an injustice to Mr. Brown, would work an injury to the Fair and put the work of those who are engaged in this work in a bad light before the public.

MUST HAVE LIQUOR LICENSE.

The Commissioner of Internal Revenue at Washington rendered a decision on the 14th inst. that will seriously affect a number of patent medicines composed of distilled liquors. He has reversed a ruling of his department, made many years ago, and now decides that the manufacturers of these medicines must take out a license as rectifiers and liquor dealers and that druggists and others handling them will have to pay the usual retail liquor dealers' licenses. The commissioner in a letter of explanation to collectors of internal revenue says that there are a number of compounds on the market going under the names of medicines that are composed chiefly of distilled spirits, without the addition of drugs or medicines in sufficient quantities to change materially the character of the whiskey.

While no statement is made by the commissioner as to the medicines that will be affected, it is believed that several prominent and highly advertised medicines will be affected by the decision. In some instances the medicines have been found to contain as high as 45 per cent of alcohol, and there are many on the market, it is said, that contain 25 per cent of alcohol. These medicines are said to have immense sales in prohibition communities, figures collected in Massachusetts recently showing, it is said, that one much-advertised compound with a high percentage of whiskey had been bought to the extent of 300,000 bottles in one year in prohibition communities of one New England State.

LIFE INSURANCE.

The recent exposures of corruption in life insurance has set many to thinking and will eventually have a tendency to have these companies so controlled as to save the people from loss. In discussing the insurance investigation The New York Press says:

"The argument that success justifies speculation with life insurance funds is no better than the excuse that Bigelow's flyer in the wheat pit would have been all right if it had not failed. The only difference between the two cases is that Bigelow went to prison for his failure, while if all the life insurance companies should go down in a world-rocking crash nobody could be put in stripes. 'It is the custom,' and the penal code does not prohibit it.

"Even if this argument were morally sound, it does not apply to gambling with life insurance funds, because—

"Directors take the profits and policy holders take the losses.

"The game the director has fixed up with the policy holder is 'Heads I win, tails you lose.' If judged on the assumption of intent to make money for the policy holders, the Wall street gambling operations are indefensible. Yet even this assumption cannot exist, in view alone of the bulging fortunes amassed by owners of life insurance companies and the prodigal dispensation of salaries to themselves and their friends and relatives."

FLORIDA STOCK.

Each issue of The Stockman, published at DeFuniak Springs, and The Florida Fruit and Truck Grower, published at Ocala, have recently contained illustrations of the fine stock—particularly cattle—that are attracting the attention of the farmers of Florida at the present time. The introduction of choice grades of cattle into the State shows excellent judgment on the part of the farmer, for it costs no more to produce a high grade cow or beef animal than it does the native breeds.

The demand for these cattle for the beef market will increase every year as the country develops, and as this State will supply the Cuban markets with beef, there will be room for many more to engage in this industry with profit. Every year the fodder crops are being improved, and cattle will pay as well as cotton or corn in this State

The educational board of Hillsborough county is in such a financial condition that it feels hardly able to pay teachers the salaries their abilities are worthy of receiving. The public schools, so often referred to as "the bulwark of our government," should not be conducted by poorly paid teachers. The lady or gentleman who spends years of study, and in many instances work day and night to fit themselves for their high calling, should have a good return for their labors so that they can prepare for their declining years, so they will be able to enjoy a few years in peaceful retirement. Pay the teachers a sufficient salary for their work, as a contented teacher is what we need in our school.

The papers that are discussing a change in the date of the inauguration of the President must be of a different political faith. We have not considered the question, as our party has not been engaged in the inauguration of presidents for some years.

The Pensacola papers should stop fighting each other for a short time and make a united attack on the fever. Dr. Porter did a good job in Tampa and he will no doubt accomplish his purpose in Pensacola if he has united support.

Bradford county is short on help to harvest the cotton crop.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

CHIEF JUSTICE SIMMONS DEAD.

Georgia Supreme Court Loses One of Its Ablest Members.

Atlanta, Sept. 14.—Chief Justice Thomas Jefferson Simmons, of the supreme court of Georgia, is dead. The end came peacefully yesterday morning at 5 o'clock after a long, lingering illness which had played upon his vitality until it could no longer withstand the ravages.

In the death of Chief Justice Simmons Georgia loses one of her best, ablest and foremost citizens, one whose life-work has been for his state. The history of his life in the civil war, in constitutional conventions, in legislative halls, at the bar and on the bench embodies in great measure the history of his state.

The funeral of Chief Justice Simmons was held in the state supreme court room Wednesday morning at 10 o'clock. The officers of the court will act as pallbearers, while the justices of the court, the judges of superior courts and city courts and many prominent members of the bar throughout the state, designated by the supreme court, will act as an honorary escort.

Do Not Oppose Arbitration.

Stockholm, Sweden, Sept. 14.—Political circles disavow any desire on the part of Swedish government to oppose the arbitration treaty proposed by Norway but to point out that only the preliminary negotiations in regard to the form and contents of such a treaty can be discussed at present as the conclusion of a treaty is impossible until Norway has accepted Sweden's conditions and the latter has recognized Norway as an independent sovereign state. The Swedish intentions, it is declared, are wholly pacific.

Sleep and Death.

An animal deprived of sleep dies more quickly than from hunger. One of the cruelest of Chinese punishments is to kill a man by preventing sleep, he dying insane about the fourteenth day. All animals sleep for some period of the twenty-four hours. How and when they do so depend upon their natural habits. But they all have this in common—that after any unusual exertion they sleep longer.—London Mail.

This is to certify that I have used one bottle of the Texas Wonder, Hall's Great Discovery, and have been greatly benefited, and can cheerfully recommend it to the public.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. The reporter seems to have misunderstood Superintendent of Instruction Kelley in the matter of appointment of students to the Female College and State University, as was a few days ago announced in The Sun. Dr. Kelley merely recommended these appointments, but the school board endorsed the recommendations.

Prof. W. E. Bell, one of the most efficient teachers in the county, will open the Hawthorn school Monday and will be assisted by his wife for the term. Hawthorn school is one of the best in the county and it goes without saying that the new faculty will keep the institution up to the standard. Prof. Bell was principal of the Alachua school last year.

Attention is called to the advertisement of Marcus Endel, which appears elsewhere in this issue. Mr. Endel is now in the North, where he will purchase one of the largest and most up-to-date lines of clothing and furnishings for gents ever brought to this county. In the meantime, the present stock will be sold at greatly reduced prices in order to make room for the fall and winter line, soon to arrive. If you want bargains, consult the prices.

G. W. Miller, for the past few months assistant tax assessor, has resigned his position to accept a position as salesman in the store of Maynard, Jones & Maynard, general merchants, Alachua. Mr. Miller is a clever young man, and it goes without saying that he will make lots of friends in his new position. Assessor Colson declares he would not have permitted him to go had it not been for the fact that the work in his office for the year is about completed, as he has made a faithful and efficient assistant.

Dr. William Sutherland and wife of High Springs were in the city yesterday. They were en route to Sarasota, where they will spend a few days recuperating. Dr. Sutherland, who is an enthusiastic Elk and a member of New York No. 1, the first lodge of that order ever instituted in the United States, came to town Thursday afternoon in order to be present at the meeting of Gainesville No. 990 in the evening, and he was of great assistance in conferring the work. The Doctor is well read in Elkdom, and his work was a great help to the local lodge, which appreciated very highly his services.

B. B. Hopson, district manager of the Mutual Life Industrial Association of Georgia, with headquarters in this city, has returned from Ocala, where he established a division of the order. Mr. Hopson has made a great success with the association since assuming the district management a few months ago.

By request of the patrons of Archer sub-school district, Prof. J. L. Dickson of Atoka, Tenn., has been appointed to the principalship of that school, with Miss Anderson of White Springs as assistant. Prof. Dickson is regarded as a teacher of ability and comes with high recommendations. Miss Anderson is also a good teacher.

Friends of Milton Strickland of Paradise, who had the misfortune a few days ago to lose an eye by a piece of flying steel, will be glad to learn that the patient is greatly improved. Mr. Strickland suffered a great deal from this accident, and, while the sight cannot be restored, it is fortunate that the result was not more serious.

Prof. W. H. Cassels, for the past term a member of the faculty of East Florida Seminary, being desirous of remaining in this county, has accepted the principalship of Alachua school. Prof. Cassels is one of the most competent instructors in the country, having taught in many of the leading schools of Georgia and Florida. He is a native of Alachua county, having been born at Island Grove.

W. S. Moore of Hawthorn, for many years proprietor of the Commercial Hotel, and one of the most widely known hotel men in the State among the sportsmen, was in the city yesterday, and made The Sun an agreeable call. Mr. Moore states that he has been in correspondence with a number of hunters in the North during the past few weeks, and indications are that several will make their headquarters in Hawthorn during the coming season.

W. W. Bruce of Fairbanks was in the city yesterday and made The Sun an agreeable call. Mr. Bruce is in possession of probably the oldest letter in existence in Alachua county and one he prizes very highly. It was written by his father, W. Bruce, to the latter's mother and is dated Lexington, Ga., September 24, 1837, addressed to Mrs. Ann T. Bruce, Glyceville, Fleming county, Ky. No envelopes were used in those days and the postal charge was 25 cents, payable either in advance or upon the delivery of the letter. The writer had been absent from home for some months and speaks of the purchase of a house and lot in his adopted home and refers to other matters of interest to his dear old mother. The letter is in a fair state of preservation and gives evidence of the writer having received a good education for those days. Mr. W. W. Bruce is now in his 72d year and says he would not part with the letter to his grandmother for anything.
